## **BUCKINGHAM TOWN COUNCIL, BUCKINGHAMSHIRE**

Buckingham Town Council has recently bought a new electric van for the Greenspaces Team, meaning that the council will be able to serve the community in a more energy efficient and environmentally friendly way.

The Renault Kangoo is the newest addition to the fleet and is 100% electric. The new van will assist the Greenspaces Team in carrying out its duties in the town such as building and parks maintenance and, event support. Through purchasing an electric vehicle, the council aims to reduce its carbon footprint and make the council more eco-friendly.

Councillor Ruth Newell, Chair of the Environment Committee added: "I am pleased that we had the opportunity to replace one of our vehicles and that we have been able to fund an electric vehicle perfect for our green spaces team to use around the Town and Parks and environmentally friendly in line with our Climate Change Action Plan."
